# FEARFUL FIRE

At An Early Hour in a New York Tensment House.

## A BABY BURNED TO DEATH

And Eleven Persons Sustained Wore or Less Serious Injuries Through Burns or Leaping From Wondows. Heroic Work of Firemen and Volunteer Rescuers.

NEW YORK, Jan. 2 -- A little baby's life was lost and eleven persons were injured in a fire which destroyed a five story tenement in First avenue, shortly after 1 o'clock this morning. Three of the injured may die. The dead child is Loretta Leonard, six months old, daughter of Edward Leonard.

The following persons were injured: Edward Leonard, hand severely lacerated while sliding down a rope from fifth floor to the street. Mrs. Margaret Leonard, his wife,

bruises and shock.
Nancy Leonard, fourteen years old,

laceration of hands, caused by sliding down rope to street. Thomas Leonard, twelve years old,

unconscious from inhalation of smoke. William Leonard, ten years old, unconscious from inhaling smoke and fiames; condition critical.

Joseph Leonard, nine years old; un-

conscious from inhaling smoke and Pauline Tischman and Philip Carroll, jumped from second story window and missed life net; severe concussions of

Mrs. Kate Lane, face and hands

James Kelleber, hands and face slightly burned while rescuing a little

Rupert Glowe, hands and face burned, while attempting to rescue tenants.

The fire, which was one of the flercest that the firemen have had to fight in a tenement house for some time, is be lieved to have started from a Christmas tree on the first floor. Candles on the tree had been lighted about mid-night and it is supposed that some of these candles were overlooked and re-mained lighted after they were thought to have been extinguished, and set the tree afire.

There were over fifty people sleeping in the house when the fire started. The flames were pouring into the hallway from the room in which the fire started when it was discovered.

When the alarm was spread through the building, the frightened people attempted to get down the stairs, but were driven back by the smoke.

James Kelleher clasped his hands over his mouth and succeeded in getting up the stairs to render assistance. Rupert Glowe, who made an attempt to go to the rescue of the tenants, was driven back to the street by flames, severely burned.

the third floor Kelleher found Til-He Powers, five years old. The girl had made her way down one flight of stairs and then fallen from exhaustion. Kelleher took her in his arms, and placing his hands over her eyes and mouth to prevent her from inhaling flames or being injured thereby, leaped down the stairway and ran through the flaming hallway to the street. His precaution saved the child from injury, his own hands receiving the burns she would otherwise have suffered.

Meantime scenes of terror and excitement were being enacted on every floor of the buring tenement. Instead of running to the rear of the building where the fire escape was, the inmates of the house rushed to the front windows and threw them open.

This gave impetus to the flames, which were shooting up the air shaft, and were showing twenty feet above the roof, before any firemen had as rived. Mrs. Pauline Tischman, an aged woman, who lived on the second floor jumped for the net which the firemen spread, but missed it. She struck the flagging, her right ankle being sprained and her body severely bruised. She had scarcely struck the walk before floor, leaped out. He, too, missed the net. Both his ankles were sprained and he was badly bruised.

Meanwhile the firemen had raised ladders to the windows on the fifth where Edward Leonard lived with his wife and six children. The firemen found Leonard struggling with his wife to prevent her sumping with her six months old babe, Loretta, from the window. As the firemen appeared at the window Mrs. Leonard dropped her baby to the floor. She was seized by the firemen and taken down the ladder in a fainting condition. Leonard alld down a rope, followed by his four-teen year old daughter, Nancy, and his esventeen year old son, Edward. The nds of all three were cut to the b by the friction. The two boys, William. eleven, and Joseph, nine, were found in bed unconscious, locked in each other's arms. They had inhaled smoke and were in a critical condition.

The body of Loretta, the little Leonard baby, was found by the firemen after the fire bad been controlled, on the floor where it's mother had dropped it. The child had been suffocated.

The loss from the flames is estimated

### Volcanic Eruptions.

Volcance Experions.

Are grand, but skin eruptions rob life of joy. Bucklen's Arnica Salve cures them all; slso Old, Running and Fever Sores, Ulcers, Bolis, Felons, Corns, Warts, Citis, Bruises, Burns, Sealde, Chapped H ands, Chibbains. Best Pile cure on earth. ### FINANCE AND TRADE.

#### The Features of the Money and Stock Markets.

NEW YORK, Jan. 2.-Money on call firm at 3@10 per cent; ruling rate 8 per cent. Prime mercantile paper 6 per cent. Sterling exchange firm, with actual business in bankers' bills at \$4 87%@4 87% for demand and at \$4 \$214@4 \$214 for 60 days; posted rates \$4 83 and \$4 88½; commercial bills \$4 81 @4 81½; aliver certificates 58½@59½c. Bar silver 58%c. Mexican dollars 47%c. Government bonds weak. State bonds inactive. Railroad bonds irregular.

The strength developed in to-day's stock market in the degree to which H extended, was a surprise to traders. Last week's very considerable advance in prices offered inviting profits and it was expected that seiling on this account would be sufficient to feed the new demand. The selling to take profits in the first hour of the trading was in fact on a very large scale, sharp advances at the opening helping along the prices. Last week's persistent demand and the large gains in prices were a paradox in Wall street and the professional traders were very persistent in turning the market on any advances. This element was watchful to-day for any opportunity to swoop upon the market and break prices to a point at which they could buy in at a profit, which they could buy in at a profit, which they could buy in at a profit, less they made a vigorous attack on Brooklyn Transit forcing it down over three points and bringing the rise in the general market to a hait. So far the course of the market was about as had been expected. The tope of the money rarket was firm at the opening and the demand incident to the active speculation in stocks pushed the money rarket was firm at the opening and the demand incident to the active speculation in stocks pushed the money rarket was firm at the opening and the demand incident to the active speculation in stocks pushed the money rarket was firm at the opening and the demand incident to the active speculation in stocks pushed the money rarket was firm at the opening and the demand incident to the active speculation in stocks pushed the money rate up to il per cent during the day. Thus all things seemed to confirm the expectations of the reactionists, who, however, falled entirely to properly gauge the outside demand for 578,000, they turned about. New york reported an improvement in the children and the firmness which characterized that stocks and in the strength of Liverpool, the English grain center being influenced by a decrease in stocks and in the amount on passage. Trade early was attended to the first light, but become more active in the general market to a hait. So far the demand form outside increase of the strength of the provision market. The amouncement of the money rate up to il per cent during the market which already was over the all figure. Was provided the market which already was over the approxim was in fact on a very large scale, sharp

profits and then proceeded to swallow up all other offerings available. The bear party became alarmed at the proto cover. The money rate ran down tone of stocks became buoyant. The most striking gains and the greatest activity were shown in the industrials, of which Sugar was the leader. common, were also in targer demand. at advancing prices and the strength spread to other industrials. At the same time there was a confident and well distributed demand for the railroad stocks. The grangers showed the largest advances owing to the rebound Trom last weeks' weakness due to the St. Paul's and Burlington statements of earnings and the trunk lines, includ-Western and the great trunk lines were all notably strong. So were the Central Traffic lines, such as Pittsburgh, Cincinnati, Chicago & St. Louis, Cleveland. Cincinnati, Chicago & St. Louis and the Lake Erie & Western stocks. Chesa-peake & Ohio failed to respond. The striking declines in discount rates abroad aroused some confidence that the export movement of gold will not extend much further, though the financing of the South African war expenditures must be reckoned with and may have been the motive of the strenuous efforts that have been made to bring about easier conditions in the London money market. As for the domestic situation, the movement of money has vidently turned in favor of New York. New York exchange at Boston went to a sharp premium to-day. An acceptdisbursements for January this year, taking into account securities of banks,

There were sufficient points of weakness in the bond market to give an ir-regular appearance although the general tone was strong. Total sales par value \$1,255,000.

# Breadstuffs and Provisions.

Breadstuffs and Provisions.
CHICAGO—The firmness of Liverpool, an improved cash demand and the decrease in the visible, with the sharp advance in provisions were a combination of buillish influences in the wheat market to-day, May closing strong, up %5% over Saturday. Corn closed ½c and oats ¾6% higher. Light hog receipts and better prices at the yards were a strong support to the provisions market, May pork closing \$2%c: May lard 17%c, and May ribs 17%@26c over Saturday.

Signate demand. Primary receipts were because inst year. Minnespole and Duistin reported receipts for two days 776 care, against 265 a year ago. Receipts here were fifty-three care, five of which were of contract grade.

Corn was strong, sympathising with wheat and provisions and supported by independent news. Confidence in the boil position was fostered by the continued light receipts and small gountry acceptances despits the good weather for movement. The price was up for both futures and the cash article and clearances from the seaboard since Saturday were encorous, amounting to LEM.000 bushels. The quantity on ocean passage was reduced \$8,000 bushels, and the visible decreased 785,000 bushels. Hoceipts here were 540 wars, considerably over the estimate. World's shipments were small. Shipping houses and local bull interests, among them influential people, were buyers throughout. The advance was practically without check. May opened 4c up at 275,000 at 125,000 and shipments were exceptionally strong, starting with a fump which surprised even those who had been looking for an improvement, May pork showing an initial gain of 15c, May lard of 746,000, and May ribe of 776,0126. The advance was starp.

Commission houses were in the pit with large buying orders from outside, while the demand from other sources was excellent and there were no salars of product for some time. When the market was at the top—up from 80c on May lard to 42%c for May pork—there was naturally some profit taking, but its effect was trivial in comparison with the advance. The advance was the combined effect of light hog receipts where liberal ones had expected, of higher prices at the yards and the small January deliveries, 1,000 barrels pork, 15,000 theres lard and 13,000 pounds ribs. May pork changed from \$10.60 to \$10.876, closing \$174c better and May ribs from \$5.00 to \$5.70, with the close 174,620c, inspread from 25%c to 244c, closing \$4.00c over Saturday at \$4c.

Batimated receipts not obtainable.

The leading futures ranged as follows

CINCINNATI — Hogs, active, strong and higher at \$3 8064 55.

### Metals.

Metals.

NEW YORK—In metals the new year opened with the outlook for renewed activity and price improvement quite encouraging. This was particularly true of tin and lead, which ruled firmer on increased demand and favorable advices from outside market. While quiet, the other departments were fairly steady and about unchanged. At the close the metal exchange called pig iron warrants quiet; lake copper unchanged at \$16.50; tin quiet and firm at \$15.50@25.50; lead steady at \$4.700% 75; spelter quiet at steady at \$4 70@4 75; speiter quiet at \$4 50@4 60. The brokers' price for lead is \$4 45 and for copper \$16 87%@15 50.

#### Dry Goods.

NEW YORK-The market reopens without any change of moment in tons or character of demand for or character of demand for cotton goods. General business quiet, and previous quotations maintained in both staple lines and fancies. Cotton yarns continue firm, but demand barely up to recent volume. In woolen goods division American Woolen Company opened for fall clay diagonals at 15 to 20 per cent advance over last September and kerseys at 15 to 33 per cent advance. There has been an active fier. vance. There has been an active de-mand at the new prices.

#### Petroleum.

OIL CITY-Credit balances \$1 66; cer-tificates, no bids or sales: ahipments, December 29, 80 and 31, 283,185 barrels; average, 78,433 barrels; runs, December 29, 20 and 31, 247,610 barrels; average, \$2,022 barrels; shipments, January 1, 56,028 barrels; runs, January 1, 48,461 barrels.

NEW YORK-Wool market quiet
